Adopted by BOE:

Complaints or Concerns C-120-E

Effective communication helps avoid and resolve many complaints, concerns, misunderstandings and disagreements. Individuals who have a complaint or concern should discuss their concerns with the school personnel involved in the issue at hand in an effort to resolve problems. This step will usually involve communicating directly with the person or persons with whom the complainant has a concern. This step may be skipped when the complainant in good faith believes that speaking directly to the person would subject the complainant to discrimination, harassment or retaliation.

This step may also be skipped if the complainant in good faith believes that any law or a District policy or written rule has been violated. The District has adopted specific procedures for investigation and resolution for complaints or concerns as required by specific and varying laws that are applicable to the District. The District's Compliance Officer should be contacted with any complaints or concerns that any law or District written rule has been violated, including but not limited to, laws relating to: civil rights, including discrimination, harassment, and retaliation; special education matters including the IEP and 504 processes and services; federal programs and related services; bullying; and The Family Educational Rights and Privacy Act, including student records and confidentiality.

When communicating directly with the school personnel involved in the issue does not resolve matters satisfactorily, or if it is appropriate to skip the first step as described above, a complainant should consult with the District's Compliance Officer who will direct the complainant to the appropriate process for resolution of the complaint. The District designates the following individual to act as the District's Compliance Officer:

Name: Sandy Steggall, Superintendent
Phone #: (816) 539-2183
Email Address: sandy.steggall@ccr3.k12.mo.us

In the event the District's Compliance Officer is unavailable or is the subject of a report that would otherwise be made to the Compliance Officer, reports should instead be directed to the alternative Compliance Officer:

Name: Brandon Burns, High School Principal
Phone #: (816) 539-2184
Email Address: brandon.burns@ccr3.k12.mo.us

All complaints of violation of any law or a District policy or written rule will be promptly investigated by the District, and appropriate action will be taken. Complainants are strongly encouraged to provide their concerns in writing.

Employee Information

Hiring Procedures for Current Employees E-105-E

Current employees who are qualified for an open position may apply for advertised positions. The Superintendent has the authority to assign a current staff member to an open position, subject to any required approval by the Board. If such an assignment is to a newly created position, the Board must approve the reassignment. If such an assignment results in an increase in compensation and/or requires the execution of a new contract of employment, the Board must approve such the reassignment.

Employment of Retirees

Individuals who are retirees receiving retirement benefits from the Missouri Public School Retirement System, the Public Education Employee Retirement System, the Kansas City Public School Retirement System or the Public School Retirement System of the City of St. Louis may be employed by the District in accordance with the laws and regulations governing the hiring of retirees.

The District will not reach a formal or informal agreement, written or unwritten, to employ an individual post-retirement, until after the individual has received his or her first payment of retirement benefits.

The Superintendent or designee will maintain documentation regarding the amount of time worked by a retiree in the District and retirees hired by the District are required to maintain documentation of any work for any other public school system other than the District and provide those records to the District on the basis directed by the Superintendent or designee, to ensure compliance with regulations regarding hours worked by retirees.

Criminal Background Checks

Prior to employment of any individual authorized to have contact with students, the District must obtain a criminal background check that is satisfactory. Whether a background check is satisfactory is in the sole discretion of the Superintendent or designee. A criminal background check may include, but is not limited to:

- Federal Bureau of Investigation criminal history files
- Missouri State Highway Patrol criminal history database
- Missouri State High Patrol sexual offender registry
- Family Care Safety Registry or the central registry of child abuse and neglect of the Children's Division of the Department of Social Services
- Missouri Case.net

Staff members may be required to submit to additional background checks, rerun background checks, or participate in state or federal RAP back programs at District expense. The District may update criminal background checks as often as the Superintendent determines.

Volunteer Background Checks:

All individuals who volunteer in a District position where they may periodically be left alone with students or who will have access to student records must complete a criminal background check. Further, volunteers who chaperone students on overnight trips or who serve as sponsors, advisors, or coaches for District-sponsored activities will be required to complete a criminal background check.

A volunteer will not be required to complete a background check if they have had a background check conducted by another Missouri public school within the last year and the current District receives a copy of the background check from the previous District or is able to obtain electronic access to the previous background check.

The Superintendent or designee may also require other volunteers to undergo a background check, or the District may conduct a search of the MSHP's criminal history database and the FCSR or the CD's central registry of child abuse.

Compliance with the Fair Labor Standards Act E-110-E

The Superintendent or designee shall make a determination regarding whether a staff member is exempt or nonexempt under the Fair Labor Standards Act (FLSA).

Overtime: Overtime hours are the actual hours worked in excess of 40 hours in a workweek. Exempt employees are not eligible for overtime compensation or compensatory time. Nonexempt employees shall not work overtime without the express prior approval of a supervisor designated by the Superintendent to approve overtime.

Compensatory Time: Only with preapproval from a supervisor, time off shall be awarded to nonexempt employees at the rate of one and half times the number of actual hours worked in excess of 40 hours in a workweek.

The following classifications of employees may be provided compensatory time in lieu of overtime: noncertificated support staff. Compensatory time may be accrued up to 240 hours/160 OT hours. Overtime worked beyond this maximum accrual will be monetarily compensated at the rate of one and one-half times the individual's rate of pay.

The District may require that an employee use accrued compensatory time. The District will approve the use of compensatory time within a reasonable period of time after the request has been made to an employee's supervisor unless the use of compensatory time would impose an unreasonable burden on the District's ability to conduct District operations. In such a case, the use of compensatory time may be postponed by the District.

Upon leaving the District, an employee will be paid for any unused compensatory time at a rate not less than the average regular rate received by such employee during the last three (3) years of the employee's employment, or the final regular rate received by such employee, whichever is higher.

Workweek: A workweek is a period of 168 hours during seven (7) consecutive 24-hour periods. The workweek shall begin on Monday at 6:00 a.m.

Timekeeping: All nonexempt employees are required to accurately complete a daily time record showing actual hours worked. Hourly employees must use handwritten timesheets to track time and turn timesheets into their supervisor who signs off on them and transmits them to the District bookkeeper.

Breaks for Nursing Mothers

The District will provide accommodations in each school building to lactating employees, teachers, and students to express breast milk, breast-feed a child, or address other needs relating to breast-feeding for one year after the child's birth. The District will provide a

minimum of three opportunities during a school day to accommodate an employee, teacher, or student's need to express breast milk or breast-feed a child.

Compensation of Employees

- Teachers: Teachers will be compensated according to a salary schedule applicable to all teachers of the District in accordance with the law.
- Professional Non-Certified Staff Members: Non-certified professional staff members may be compensated according to a salary schedule developed by the Superintendent and adopted by the Board or may be compensated with amounts approved individually by the Board and set forth in individual letters of assignment or contracts of employment.
- Support Staff: Support staff members may be compensated according to a wage schedule developed by the Superintendent and adopted by the Board or may be compensated with amounts approved individually by the Board and set forth in individual letters of assignment.

The following salary schedules have been approved by the Board of Education for the 2023-2024 school year.

Extra Duty Assignment Compensation: Staff members who provide extra duties may be compensated according to a wage schedule for such duties developed by the Superintendent and adopted by the Board or may be compensated with amounts approved individually by the Board and set forth in individual letters of assignment. Any salary/wage schedule adopted by the Board may be modified in accordance with the law and in accordance with any applicable employment contracts and/or collective bargaining agreements. The Board may elect to freeze the operation of some or all salary/wage schedules.

Employees who are under contracts of employment shall not receive compensation in excess of the amount set forth in the contract of employment for the contract year unless the employee assumes additional or extra duties beyond the duties contemplated by the contract of employment.

Employees and prospective employees of the District are responsible for providing the District with sufficient information and documentation regarding past work and educational experience to allow the District to ascertain appropriate placement on any applicable salary/wage schedule and/or to determine appropriate compensation for duties and/or extra duty assignments. The District is not required to review or change placement on any salary or wage schedule after an employee's placement has been determined.

Employees may be subject to disciplinary action for providing information that leads to improper placement on a salary or wage schedule, improper assignment of compensation based on education or experience or other relevant factors, or for inaccurately reporting time worked according to the District's timekeeping method/s.

Pay Periods: All employees shall be paid once a month on the 20th regardless of school holidays. If these dates fall on a bank holiday or a weekend, payday will be the last business day prior to the holiday or weekend. All salaried employees will receive their pay spread out over 12 months. Direct deposit is mandatory for all employees. All certified staff who contribute to PSRS and have a nine-month contract, will receive their first paycheck September 20th.

Voluntary Payroll Deductions: The District may authorize voluntary payroll deductions from compensation earned by employees if ten (10) or more employees so request. The employee must authorize all voluntary deductions in writing. In addition to the deduction of amounts authorized by the employee, the District may deduct the administrative cost of compliance. The amount deducted will be remitted to the organization, company or association authorized by the employee.

Involuntary Payroll Deductions: The District may make deductions when an employee owes the District money and the deduction does not otherwise violate the law. The District may make deductions from an employee's pay for unauthorized absences. The District will also make deductions when presented a garnishment, wage attachment or other legal order. The District may deduct amounts owed to the District by the employee for unpaid meal accounts for the employee or the employee's child/ren, and for payment of other District-related accounts and other possible charges.

The District may charge an administrative fee for processing such deductions when allowed by law.

Salary deductions for exempt employees shall be computed by dividing the salary, excluding extra-duty pay, by the number of days in the contract period. Deductions for nonexempt employees shall be based upon the hourly rate of the individual employee.

All District employees are responsible for ensuring compensation received from the District is correct according to their contracts/letters of assignment and, for non-salaried staff members, according to their timesheets and time actually worked. Employees must notify the District of any discrepancy in compensation within 10 days of receipt.

The District may deduct any overpayment made to an employee as permitted by law, even if an employee fails to report such overpayment.

Employee Responsibility: It is the responsibility of the employee to inform HR or Accounting of any changes that affect your pay or benefits. Examples are bank account change, change of address, phone number, beneficiary changes for personnel records or W-4 changes.

Improper Deductions: Employees who believe that pay deductions have been improperly made should immediately report the concern to the Superintendent or designee.

Extra Duties Generally

Employees may be assigned to perform reasonable duties in addition to their regularly assigned job duties if the Superintendent or supervisor determines that the needs of the District so require to adequately serve the needs of the students of the District. Whether compensation for these duties, including overtime compensation, is appropriate will be determined by the Superintendent and approved by the Board in accordance with policy and the law.

Extra Duty Positions: Extra duty positions (such as coaching positions, club sponsor positions, etc.) may be created by the Board and employees may be hired for such positions by the Board upon the recommendation of the Superintendent. Extra duty positions are at-will positions and will be compensated at the rate set by the Board of Education and in compliance with the Fair Labor Standards Act (FLSA), if applicable. Extra duty positions are not subject to the provisions of the Teacher Tenure Act.

Extra Duty Assignments: Upon approval of candidates by a majority of the whole Board, the Superintendent may engage interested employees to perform occasional extra duty assignments such as concession stand, timekeeping, ticket booth, and other such occasional assignments.

Employee Leave and Absences E-115-E

The District requires that employees have consistent attendance in order to achieve the best outcome for District students and to ensure all District operations run smoothly. The District provides leave to employees, as more specifically outlined below, in order to provide security for employees who need time off for reasons approved herein.

Attendance is an essential duty of every employee's position in the District, and excessive or improper absences and/or tardiness create a hardship on the District, its students, and staff. Staff members who are ill should take provided leave in order to ensure the overall health and wellness of the school community.

Absences and Tardiness: Absences and tardiness may be considered excessive or improper under conditions such as, but not limited to the following:

- The absence or tardiness results in an employee exceeding the number of leave days allotted to him/her;
- An employee whose assignment requires attendance during the regular school term absences exceed 5 days within a 30-day period, 10 days within a 120-day period, or 15 days within a 180-day period; or an employee whose assignment requires attendance for more than the regular school term absences exceed 5 days within a 30-day period, 10 days within a 120-day period, 15 days within a 180-day period, or 20 days within a 365-day period; or creates a hardship on the District;
- An employee's tardiness exceeds 2 days within a 30-day period, 6 days within a 120-day period, or 8 days within a 180-day period, or creates a hardship on the District;
- The absence/tardiness was not requested by the employee and/or was not approved by the appropriate supervisor, which includes a "no-call-no-show" situation;
- The employee provides incomplete or inaccurate information regarding the reason for the need for leave or tardiness, or fails to respond completely or appropriately when directed to provide supporting documentation;
- The employee is absent from work, fails to contact his or her supervisor, and fails to adequately respond to the District's attempts to contact the employee. Under these circumstances, the District will consider this a resignation by the employee.

The District is entitled to dock an employee's compensation in the event that absences or tardiness are excessive or improper.

Procuring a Substitute Teacher: Teachers are expected to be at school every day. However when an absence is necessary, teachers must report their absence in the Frontline Substitute Management System as soon as possible. All absences must be reported by 6:00 am on the morning of the absence in order to secure a substitute. Ellis Elementary Staff should call Kati Lager when reporting an absence before or after school hours. Clinton County Middle School staff should call Megan Miller when reporting an

absence before or after school. Plattsburg High School staff should call Karrie Richerson when reporting an absence before or after school. All absences should be reported by 6:30am on the morning of the absence in order to secure a substitute.

Substitute Folder: Each teacher needs to create a substitute folder. This folder needs to be in place so the substitutes have necessary information to facilitate your classes.

Substitute folders are to be filed with the principal's secretary by the end of the second week of school. In case of an unplanned absence, teachers should have 3-day emergency lesson plans in the substitute folder. The substitute folder should include the following items:

- Bell Schedule
- Daily Routine Schedule and Procedures
- Attendance (at Ellis use paper)
- Locker procedures and/or leaving the classroom procedures, including emergency procedures
- Lunch schedule/ procedures/ duty
- Class schedule
- Class rosters
- Classroom expectations/ rules/ consequences
- Seating charts
- List of students with special needs: medical, physical and educational
- Lesson plans: Please leave a “substitutes unit” which may be outside of the normal sequence of the curriculum plan, but is pertinent to the course in case of emergency. Remember to replace this plan once the substitute has taught the lesson
- Extra duties: Morning, after school, hall, and cafeteria

Other lesson plan requirements may be added by your building principal.

Record Keeping/Lesson Plans: Teachers are expected to keep a current and accurate record of all student grades and absences in PowerSchool.

Teachers are expected to check the role at the beginning of every class and report any student absence or tardiness.

Teachers are expected to plan a full period of instruction for each class and must remain in the classroom with their assigned students at all times. When circumstances arise where teachers must be out of their classroom for an extended period of time they should notify the office immediately.

No student is to be allowed to participate in class following an absence without first checking in at the office before re-entering class. The only exception to this rule will be those students absent because of their involvement in athletics or school field trips. A list of the students to be absent will be emailed to the teacher the day before the activity is to occur. The students whose names appear on these lists will not be required to obtain a permit to return to class.

Teachers will be expected to prepare and maintain lesson plans in sufficient detail that the principal or another teacher can determine the educational intent for a given class period and provide documentation that the objectives in the curriculum frameworks are being taught. These lesson plans are to be made available to any evaluator during a regular classroom evaluation.

Lesson plans should be available to the principal upon request. It is understood that lesson plans are subject to change at any time for a variety of reasons and teachers would not be expected to follow the lesson plans previously filed should the teacher determine that the lesson needs to be amended.

Employee Leave: The following leaves will be provided to staff members, unless a contract for employment specifies other leave benefits, in which case the language in the contract of employment shall control. Regular part-time staff members shall receive leave benefits listed below on a pro-rata basis. Employee leave shall not be used on the following days unless approved by an administrator:

- Before or after a holiday
- Days where an in-service is scheduled
- First and last week of school

During any concerted refusal to work or any other practice that impacts or interferes with the District environment and/or District operations, employees are prohibited from using paid or unpaid leave unless it is required by law or an employee provides documentation of the need for the leave to the satisfaction of the District. The District may revoke previously approved leave.

Employees who are members of the retirement system shall remain members during applicable periods of leave provided by District policy and under the law and shall receive creditable service in accordance with the law.

Sick Leave: All full-time employees receive seven days of sick leave. Unused sick leave will be cumulative to 100 sick leave days.

Any unused sick leave accumulated in excess of 100 days will be reimbursed to the employee at the end of each school year, subject to all applicable taxes and other required deductions. Professional staff are paid as reflected on the sliding scale below. Support staff are paid per day at 50 percent of the daily rate paid to substitute teachers. This provision will not apply to employees who are separated from employment for misconduct or violations of Board Policies or who are otherwise not in good standing with the District. Payment for unused sick leave is subject to Board approval.

Professional staff employees who leave or retire from the District will be compensated for unused sick leave days. The rate of compensation for each unused

sick day will be a percentage of the daily rate paid to substitute teachers, and the percentage will be based on an employee's number of years of service with the District, as shown below.

- 0 to 5 years of service -- 50 percent of daily substitute pay
- 6 to 10 years of service -- 60 percent of daily substitute pay
- 11 to 15 years of service -- 70 percent of daily substitute pay
- 16 to 20 years of service -- 80 percent of daily substitute pay
- 21 years or more of service -- 100 percent of daily substitute pay

Support staff employees who leave or retire from the District will be compensated for unused sick leave days. The rate of compensation for each unused sick day will be 50 percent of the daily rate paid to substitute teachers.

Employees who are hired to begin work as new employees beginning with the 2018-19 school year and thereafter will be compensated for unused sick leave days only if they are eligible for benefits from The Public School Retirement System of Missouri (PSRS) or the Public Education Employee Retirement System (PEERS) when they retire from the District and are not terminated from the District. All employees employed prior to 2018-2019 will be grandfathered in.

Absences of more than one hour through four hours shall be counted as a half-day of sick leave. Sick leave may be used for:

- An employee's own illness, injury, or incapacity. (FMLA leave requirements may apply.)
- The illness, injury, or incapacity of an employee's immediate family member. For purposes of sick leave, "immediate family" means the employee's spouse; the employee's spouse's or the employee's parents, children, children's spouses, grandparents, grandchildren, siblings, and other family members residing with the employee; and any other person over whom the employee has legal guardianship or for whom the employee has power of attorney and is the primary caregiver. (FMLA leave requirements may apply.)
- To care for the employee's stepchild if the employee is primarily responsible for furnishing the care and nurture of the child.
- Sick leave cannot be applied to the period of leave an employee receives Workers' Compensation benefits for time off due to work-related injuries/illnesses.
- The illness, injury, or incapacity of an individual who is not an employee's immediate family member, upon approval by the Superintendent.

Personal Leave: Personal leave is provided to employees in order to allow employees to conduct personal business which cannot be conducted on other days off or on a weekend. Personal leave may be applied when sick leave has been exhausted, and can also be applied to leave that would otherwise be unpaid, such as FMLA leave. Personal leave must be approved by the employee's direct supervisor, and requests should be made, when possible, at least 48 hours in advance of the date leave is required. Personal leave cannot be applied to the

period of leave an employee receives Workers' Compensation benefits for time off due to work-related injuries/illnesses.

Full-time employees will receive 5 days of personal leave per school year. Any unused personal leave at the end of a school year will roll to sick leave.

Vacation: Full-time 12-month professional staff members will receive 10 days of vacation time per school year. Full-time 12-month support staff members will receive two weeks of vacation time per school year. Vacation time does not accrue or roll over. Employees will be paid for unused vacation time at the end of each school year at a daily rate equal to the daily substitute rate of pay. Requests for vacation time must be submitted to the Superintendent or other designated administrator or supervisor prior to the date of the anticipated vacation and are subject to approval based on the needs of the District and the timing/duration of the requested vacation. Vacation cannot be applied to the period of leave an employee receives Workers' Compensation benefits for time off due to work-related injuries/illnesses.

Bereavement Leave: An employee is entitled to 4 days of paid leave upon the death of a member of the employee's immediate family (as defined for purposes of sick leave), or if not a member of the employee's immediate family, the approval of the Superintendent. The District may request verification of the need for bereavement leave.

Employees must provide notification of the need for leave and the requested amount of leave, at least 30 days in advance when possible and practical. An employee may use any combination of accrued leave or unpaid leave during this period of time. Pregnant employees who need more than six weeks of paid or unpaid leave for medically-required, pregnancy-related leave, either before or after the birth of a child, must provide certification from a healthcare professional for such leave, which is subject to approval by the District and in accordance with any applicable laws.

This provision does not grant an employee leave which extends beyond a period of contracted employment. This provision does not apply to employees who are eligible for FMLA leave. This provision does not apply to an employee who would

be eligible for FMLA leave but has exhausted available FMLA leave for a given 12-month period.

Other Categories of Leave: All employees are entitled to certain leaves as required by law, including:

- *Domestic and Sexual Violence Leave:* Employees who are victims of domestic or sexual violence or have a family or household member who are victims of domestic or sexual violence may take unpaid leave from work to address such violence as required by law.

- *Election Leave:* The District will not terminate, discipline, threaten or take adverse actions against an employee based on the employee's service as an election judge. An employee who is appointed to serve as an election judge may, on Election Day, be absent from his or her employment for the period of time that the election authority requires the employee to serve as election judge. Employees must notify employers at least seven days prior to an election that they will be absent from work on Election Day due to service as an election judge.
- *Firefighter Leave:* The District will permit employees to use available leave, other than sick leave, or unpaid leave, for time required to respond to an emergency when the employee is performing duties as a volunteer firefighter, as defined under the law. The District requires documentation from the volunteer fire department's supervisor to support the need for each such absence. Employees who meet the legal definition of "volunteer firefighter" shall not be terminated from employment for joining a volunteer fire department or for absences required for responding to an emergency.
- *Leave to Vote:* Any employee eligible to vote, who does not have three successive hours free from employment with the District while the polls are open will be granted leave for up to three hours while the polls are open to allow an employee to vote if the employee makes the leave request prior to the date of the election. The District may specify the three-hour time period during which the employee is entitled to take leave. The District will not subject the employee to any penalty or discipline, or deduction from salary or wages when a timely request for leave to vote is made.

- *Military Leave:* Employees will be granted military leave pursuant to Missouri state law and the Uniformed Services Employment and Reemployment Rights Act of 1994. Employees who require military leave must provide the District with required documentation in order for the District to process the requested leave.
- *Jury Duty or Subpoena Leave:* Employees are entitled to paid leave for required appearances associated with federal or state jury duties or subpoenas. Employees are not required to use leave in order to perform jury duty, and the District will not terminate, discipline, threaten or take adverse actions against an employee on account of the employee's receipt of or response to a jury summons.

Family and Medical Leave: The District will provide leave to employees as required under the Family and Medical Leave Act (FMLA) in accordance with federal law, and provide all other types of leave protected by state and/or federal law. It is unlawful for any employer to interfere with, restrain, or deny the exercise of any right provided under FMLA. It is also unlawful for an employer to discharge or discriminate against any individual for opposing any practice, or because of involvement in any proceeding, related to FMLA.

To be eligible for FMLA leave benefits, an employee must:

1. Be employed at a worksite where 50 or more employees are employed by the District within 75 miles of that worksite;
2. Have been employed by the District for at least 12 months; and
3. Have been employed for at least 1,250 hours of service during the 12-month period immediately preceding the leave.

An eligible employee may qualify for up to 12 workweeks of FMLA leave within a 12-month period for the following reasons:

- The birth of a child or placement of a child with the employee for adoption or foster care, within one year of the birth/placement.
 - Birth and bonding leave must be taken as a continuous block of leave.
- To care for a spouse, son, daughter, or parent who has a serious health condition;
 - "Serious health condition" means an illness, injury, impairment, or physical or mental condition that involves inpatient care or continuing treatment by a health care provider.
- For a serious health condition that makes the employee unable to perform the essential functions of his or her job;
 - An employee with a "serious health condition" is "unable to perform the functions of the position" where the health care provider finds that the employee is unable to work at all, or is unable to perform any one of the essential functions of the employee's position. An employee who must be absent from work to receive medical treatment for a serious health condition is considered to be unable to perform the essential functions of the position during the absence for treatment. Employees may be required to present a fitness for duty to return to work.

- Employees may be entitled to qualifying exigency leave under the FMLA arising out of the fact that a spouse, son, daughter, or parent is a military member on covered active duty or call to covered active duty status.
 - Eligible employees may take FMLA leave for a qualifying exigency while the military member is on covered active duty, call to covered active duty status, or has been notified of an impending call or order to covered active duty.
 - Qualifying exigencies may arise when the employee's spouse, son, daughter, or parent who is a member of the Armed Forces (including the National Guard and Reserves) and who is on covered active duty or has been notified of an impending call or order to covered active duty. For purposes of qualifying exigency leave, an employee's son or daughter on covered active duty refers to a child of any age.

An eligible employee may qualify for up to 26 workweeks of FMLA leave within a 12-month period for the following reason:

- To care for a covered servicemember with a serious injury or illness if the employee is the spouse, son, daughter, parent, or next of kin of the servicemember (military caregiver leave).
 - This applies to both current servicemembers and certain veterans.
 - The single 12-month period for military caregiver leave begins on the first day of leave and ends 12 months later, regardless of the 12-month period established by the District.
 - This is a combined total of 26 workweeks of leave for any FMLA qualifying reasons during the single 12-month period. Up to 12 of the 26 weeks may be for an FMLA-qualifying reason other than military caregiver leave.
 - This leave may be used once per servicemember, per serious injury or illness. However, an eligible employee may take an additional 26 weeks of leave in a different 12-month period to care for the same servicemember if he or she has another serious injury or illness.

The District shall use the following established 12-month period to measure FMLA eligibility: July 1st – June 30th. Employees must notify the District of the need for leave and the reasons for leave so the District is able to make a FMLA eligibility determination.

If the leave is foreseeable, employees are required to request leave 30 days in advance, by specifying the reasons for leave, the anticipated start date of the leave, and the anticipated duration of the leave. When the need for leave is foreseeable less than 30 days in advance or is unforeseeable, employees must provide notice as soon as possible and practicable under the circumstances. In the case of leave for a qualifying exigency, the employee must give notice of the need for such leave as soon as possible and practical, regardless of how far in advance the leave is needed. A failure by an employee to provide required notice may result in a delay or a denial of FMLA leave.

The District will comply with procedures required under FMLA regarding notification of eligibility, rights, and responsibilities. If the employee is not eligible, the District will provide a reason for ineligibility. The District will provide written notice to an employee if

leave is designated as FMLA leave based on employment status and the reason for leave. The employee will be provided this notice within five (5) business days of the District receiving sufficient information to make an eligibility determination. If ascertainable, the notice will notify the employee of the time that will be counted against the employee's FMLA leave allotment.

The District may require an employee requesting FMLA leave to submit a timely, complete, and sufficient medical certification to support a request for FMLA leave or periodic recertification supporting the need for leave due to the employee's own serious health condition. If requested, a response is required to obtain or retain the benefit of FMLA protections. Failure to submit a timely, complete, and sufficient certification may result in discipline, up to and including termination of employment or in a denial of an FMLA request. At least 15 calendar days will be provided to the employee to obtain a sufficient and complete certification. Certifications that are incomplete will be required to be updated as permitted by and within the timelines allowed under the law.

The District will apply all appropriate paid leave to an FMLA absence. Upon the exhaustion of applicable paid leave during a period of FMLA leave, the remaining FMLA-qualifying absences will be unpaid. When an employee's absence meets the criteria to be FMLA-qualified, the District will designate such absence as FMLA leave, even if the employee has not requested it be designated or does not want it to be designated as FMLA leave and/or the leave is paid or unpaid. If the employee is absent due to an injury/illness that is designated as a Workers' Compensation related issue that would also qualify as a serious health condition under FMLA, the absence will also be designated as an FMLA absence. The District may designate FMLA leave retroactively.

When both spouses are employed by the District, eligible for FMLA leave, and wish to take FMLA leave for the same qualifying event (either birth and bonding with newborn, placement and bonding of child for adoption or foster care, or care of a parent with a serious health condition), the leave will be limited to a total of 12 workweeks during a 12-month period between the two spouses for the relevant qualifying event. The total taken by an individual employee will count against the individual employee's 12 workweek availability, should a separate FMLA qualifying event arise during the applicable 12-month period. Eligible spouses who work for the District are also limited to a combined total of 26 workweeks of leave in a single 12-month period to care for a covered servicemember with a serious injury or illness if each spouse is a parent, spouse, son or daughter, or next of kin of the servicemember. When spouses take military caregiver leave as well as other FMLA leave in the same leave year, each spouse is subject to the combined limitations.

FMLA leave may be taken intermittently as required by law.

For eligible instructional employees who require intermittent or reduced schedule leave of more than 20 percent of instructional time, and whose principal function is to teach and instruct students in a class, a small group, or an individual setting, including teachers, athletic coaches, driving instructors, and special education assistants, such as signers for the hearing impaired, the District may require the employee to take leave for a

period or periods of a particular duration, not greater than the duration of the planned treatment or transfer temporarily to an available alternative position for which the employee is qualified, which has equivalent pay and benefits and which better accommodates recurring periods of leave than does the employee's regular position. Additionally, if an instructional employee is scheduled to return from FMLA leave near the end of a school term, the District may choose to require the employee to prolong his or her leave until the beginning of the next term, in accordance with the law regarding this option under FMLA. Any leave that the District requires an employee to take between the time the employee is able to return to work and the beginning of the next term is unpaid, but shall not be charged against the employee's annual FMLA leave entitlement.

During a period of FMLA leave, employees are entitled to continue participation in the District's health plan for the period of protected leave. The District may require the employee to repay the District's share of the premium payment if the employee fails to return to work following the FMLA leave unless the employee does not return because of circumstances that are beyond the employee's control, including a FMLA-qualifying medical condition.

Employees who take FMLA leave may return to the same or an equivalent position with equivalent pay, benefits, and working conditions, upon return from leave as required by law. The District has discretion to determine what assignment is appropriate based on certification, qualifications, and what is in the best interest of students of the District and the consistent operation of the District.

Employees may file a complaint with the U.S. Department of Labor or file a lawsuit against the District for FMLA violations.

Benefits, including various insurance benefits, are offered by the District to qualifying professional and support staff members as part of compensation packages. Employees may receive additional information regarding benefits by requesting it from the Superintendent or designee. The following benefits are available to eligible employees (works a minimum of 30 hours per week) and may be fully or partially paid by the District or available to employees at cost:

Upgrades to plans are available at the employees cost.

- The District will ensure that any health plan offered is compliant with state law regarding the eligibility of individuals who retire from the District and who are eligible to receive benefits from PSRS and/or PEERS. This eligibility shall also extend to qualifying spouses and children. Qualified individuals who elect to enroll post-retirement must pay required premiums and are required to enroll within one year from the date of retirement.
 - The District will comply with the Consolidated Omnibus Budget Reconciliation Act of 1986 (COBRA) requirements, and allow for continuing health insurance coverage as required by law. Section 125. This shall not be required if the District offers health insurance through any self-insured or self-funded group health benefit plan of any type or description.
 6. Other benefits approved by the Board

Employee Health and Safety E-125-E

The District seeks to provide safe working conditions for all staff members. Staff members are required to comply with all safety guidelines and directives provided by District policy, job descriptions, and as provided by supervisors and administrators of the District. Staff members will be trained on health and safety. Staff members must report all conditions that threaten the health or safety of staff members or students of the District to the administration.

Staff members whose job descriptions set forth certain physical requirements may be required to provide documentation which indicates the ability to perform such duties in accordance with the law. Similarly, the District will make medical inquiries regarding employees in accordance with the law. Drivers of District transportation, whether directly employed by the District or through a contracted service provider, must upon hire and thereafter biennially, file a statement from the medical examiner within the District confirming that the individual meets the physical qualifications to operate District transportation for the purpose of transporting students.

The District will provide reasonable accommodations to employees as required under the Americans with Disabilities Act (ADA) and otherwise comply with other applicable provisions of the ADA.

The District will provide reasonable safety accommodations to employees who are victims of domestic or sexual violence or have a family or household member who is a victim of domestic or sexual violence, as required under Missouri law.

Workers' Compensation

An employee of the District who is injured, killed or who is exposed to and contracts an occupational disease arising out of and in the course of employment is eligible for compensation in accordance with Missouri Workers' Compensation Law and District policy.

Employees are required to report all workplace injuries immediately to his or her immediate supervisor by submitting a written injury reporting form. An injury reporting form is located in the back of this Employee Manual. An employee's supervisor will assist the employee with completion of the written report as soon as possible in the event that the supervisor is aware of the incident and if the employee is unable to complete the incident report due to the nature of the injury or illness. Employees who fail to notify the District within 30 days may jeopardize their ability to receive compensation, and any other benefits under the law and District policies and rules.

The District may designate medical providers for Workers' Compensation evaluations, claims, and treatment. If the employee desires, he or she shall have the right to select his or her own physician, surgeon, or other such requirement at the employee's own expense.

An employee may experience reduced benefits in the event that an employee fails to comply with safety rules, guidelines, or directives adopted by the District or if the employee fails to use safety devices provided by the District.

If an employee fails to obey the District's drug-free workplace rule or any other District policy or rule related to the use of alcohol or non-prescribed controlled substances, an employee may experience reduced benefits or the loss of benefits as set forth under the law if the injury was sustained in conjunction with the use of alcohol or non-prescribed controlled drugs. District administration may require an employee who reports an injury to undergo post-injury testing for alcohol or non-prescribed controlled substances in accordance with the law. A refusal to submit to a test will result in the loss of benefits and may result in disciplinary action, up to and including termination of employment.

An employee is disqualified from receiving temporary total disability during any period of time in which the claimant applies and receives unemployment compensation. If the employee is terminated from employment based upon the employee's post-injury misconduct, neither temporary total disability nor temporary partial disability benefits are payable under the law.

Employees are not permitted to use paid leave for absences during a period when an employee receives any Workers' Compensation wage benefits. The District will apply paid leave, if available, to the first three (3) days of absence, if the total absence is less than 14 days, upon receipt of confirmation that an employee will not receive Workers'

Compensation wages for those days. The District will require an employee to use any of the employee's accumulated paid leave, personal leave, or sick leave to attend to medical treatment, physical rehabilitation, or medical evaluations during work time. If no paid leave is available, such leave will be granted as unpaid leave. Employees who are absent due to a Workers' Compensation qualifying injury or illness and are receiving wage benefits during that period of time will not lose accrued leave for such absences.

Drug Free Workplace E-130-E

The District does not tolerate the unlawful use, manufacture, distribution, sale, possession or dispensation of controlled substances, alcohol, or unauthorized prescription medications by employees of the District in any District setting, including but not limited to: District property, District transportation, vehicles approved for the transport of students to or from school-related activities or programs, off-campus sites being used for any District-sponsored or District-approved activity, program, or event where students are under the supervision of the District, or in any setting where an employee is engaged in District business that requires the supervision of students or involves the presence of students. The District does not allow employees to be present in any District setting described above while under the influence of any controlled substance, alcohol, or unauthorized prescription medication, even if such substance was consumed prior to the employee before entering a District property or activity. All employees of the District are required, as a condition of employment, to comply with these rules and notify the Superintendent of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after the conviction. Employees who fail to comply with these requirements are subject to disciplinary action up to and including termination of employment in accordance with District rules and District policies. Information regarding the negative health and safety effects of drug use and alcohol abuse is available by contacting Benefits Coordinator Sandy Goad.

The possession, use, and being under the influence of medical marijuana is prohibited while at work.

Employees must safeguard any of their own authorized prescription medications in any District setting, including but not limited to: District property, District transportation, vehicles approved for the transport of students to or from school-related activities or programs, off-campus sites being used for any District-sponsored or District-approved activity, program, or event where students are under the supervision of the District, or in any setting where an employee is engaged in District business that requires the supervision of students or involves the presence of students. This includes, but not limited to, storing authorized prescription medication in child-proof or locked containers.

Drug and Alcohol Testing: In accordance with the District's commitment to a drug and alcohol-free workplace, the District will make every effort to ensure that employees are not under the influence while engaging in their employment. The information included in this Employee Manual serves as notice to all staff members of the District's drug and alcohol testing procedures.

If the District has reasonable suspicion that a staff member is under the influence of alcohol or a controlled substance in violation of these rules, the District may require an employee to submit to an alcohol and controlled substances test. Employees who exhibit signs of being under the influence of a prohibited substance just before, during, or just after the period of the workday may be subject to reasonable suspicion testing. Additionally, staff members who operate District transportation are required to undergo testing as required by law. Drivers of District transportation, whether employed by the District or a third party contractor, are prohibited by law from using alcohol within four (4) hours of reporting for duty. Drivers who are required to take a post-accident test are prohibited from using alcohol for eight (8) hours following any such accident or until the driver undergoes the test, whichever comes first.

Supervisors of employees who have reasonable suspicion that an employee is under the influence of alcohol or drugs in the workplace are required to immediately report such condition to the Superintendent or designee. The Superintendent/designee will determine if testing is appropriate and if so, direct the employee at issue to submit to a mandatory test. Testing will be conducted at an appropriately qualified facility with collection procedures that are industry standard.

If the District employs its own drivers for District transportation who are “operators of commercial motor vehicles”, the District will comply with federal requirements regarding drug and alcohol testing, including the implementation of pre-employment drug screening, and reasonable suspicion, random, and post-accident testing at laboratories certified by the U.S. Department of Health and Human Services, and shall notify all drivers covered by federal requirements of such procedures. If the District contracts with a third party for transportation services, the District will require by contract with such third party that the contractor comply with all guidelines of the Omnibus Transportation Employee Testing Act and applicable state reporting requirements.

Employees who test positive for controlled substances or alcohol and employees who refuse to submit to a test or fail to comply with required testing protocol in order to obtain an accurate and/or timely specimen are in violation of this policy and are subject to disciplinary action up to and including termination of employment in accordance with District rules and District policies.

The District may refer any matter that may be a crime to the appropriate law enforcement agencies. Employees may be required to participate and complete counseling or rehabilitation programs if determined appropriate by the administration. A list of counseling, rehabilitation, and/or employee assistance programs available to employees can be located by contacting Benefits Coordinator Sandy Goad.

Alcohol and drug screening records shall be maintained confidentially with an employee’s medical records and released only in accordance with the law. Employees who make a written request for a copy of records of an employee’s drug or alcohol use, including test results, may receive a copy.

The District is required to report certain convictions to the U.S. Department of Education or other required federal agency. Employees must notify the Superintendent of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after the conviction. The Superintendent is required to report any such conviction within ten (10) days after receiving notice from the employee or otherwise receiving notice of conviction, to any agency from which the District directly receives federal grant money. The District will take appropriate disciplinary action against employees with such convictions within 30 days.

If the District employs its own transportation service employees, the District will maintain records as required by law that relate to such drivers, and comply with all reporting requirements, including those set forth by the Missouri Department of Revenue, and to subsequent employers only as expressly requested in writing by the driver-employee.

Procedure for Drug and Alcohol Testing of Employees Other than Drivers:

1. If a supervisor has reasonable suspicion to believe that an employee is in violation of the District's drug-free workplace rules, the supervisor is required to reduce information and evidence of such violation to writing and immediately report the incident to the Superintendent or designee. The supervisor should note all physical symptoms, witness to symptoms, and other evidence.
2. The Superintendent/designee will determine if testing is appropriate.
3. Testing will be administered as soon as reasonably possible based on the circumstances. If testing is delayed beyond a reasonable period of time, the Superintendent or designee shall document the reasons for delay.
4. Testing will be conducted at an appropriately qualified facility with collection procedures that are industry standard. If such facility is not readily available or practical, the District may contact a law enforcement agency or personnel to conduct such testing.

Procedure for Drug and Alcohol Testing of Drivers: For the purposes of this procedure, the District's coordinator of drug and alcohol testing programs for drivers shall be the Superintendent or designee.

The following terms are defined below for the procedure for testing of drivers:

Alcohol - Intoxicating agent in beverage alcohol, ethyl alcohol or other low molecular weight alcohols including methyl and isopropyl alcohol.

Qualified Supervisor - An employee or driver supervisor who has completed at least 60 minutes of training on the symptoms of alcohol abuse and another 60 minutes of training on the symptoms of controlled substances use (120 minutes in total). The purpose of this training is to teach supervisors to identify circumstances and indicators that may create reasonable suspicion that a driver is using or under the influence of alcohol or drugs, supporting referral of an employee for testing.

Reasonable Suspicion - Specific, contemporaneous, articulable observations concerning the appearance, behavior, speech, or body odors of an employee.

Safety-Sensitive Function - A driver is considered to be performing a safety-sensitive function from the time a driver begins to work or is required to be ready for work until the time the driver is relieved from work and all responsibilities for performing work. Safety-sensitive functions include time spent waiting to be dispatched, inspecting, servicing, or conditioning a commercial motor vehicle, time spent at the driving controls, any time spent in the commercial motor vehicle, time spent loading, unloading, or supervising loading or unloading of the vehicle, and time spent servicing or awaiting the service of a disabled commercial vehicle.

Substance Abuse Professional - A person who evaluates employees who have violated a Department of Transportation (DOT) drug and alcohol program regulation and makes recommendations concerning education, treatment, follow-up testing, and aftercare.

Testing - Testing will be conducted in accordance with federal law by facilities that meet applicable federal standards.

Pre-Employment Tests: Driver applicants are required to undergo pre-employment testing prior to performance of safety-sensitive functions and the District must receive a verified negative result. Prospective employees are required to submit to testing. Refusal to do so will disqualify an individual from employment. Current employees transferring from a non-safety-sensitive function into a safety-sensitive position are also required to undergo pre-employment testing.

Post-Accident Tests: All drivers will be trained on the requirement and procedures for post-accident testing. Drivers are required to comply with federal regulations and District procedures regarding testing.

- Post-accident tests will be administered as soon as practicable after any accident when there is:
 - A human fatality, regardless of whether a citation is issued to the driver;
 - Bodily injury resulting in medical treatment away from the scene of the accident when a citation is issued to the driver;
 - Disabling damage to a vehicle requiring a tow away when a citation is issued to the driver;

- The District may, in its discretion, require all drivers to submit to testing after any accident when the driver was performing a safety-sensitive function.
- Tests for drugs must be administered within 32 hours following the accident and tests for alcohol should be administered within two (2) hours and must be administered within eight (8) hours following the accident.
- Post-accident testing shall be conducted in accordance with federal law and regulations. Failures to comply with federal regulations relating to post-accident testing shall be documented by the District's coordinator and any required report shall be submitted to the DOT.
- Post-accident testing done by law enforcement officials shall meet post-accident testing requirements if the results are provided to the District.

Random Testing: The District will conduct random drug and alcohol testing of drivers. Random alcohol testing will be conducted just before, during, or just after an employee's performance of safety-sensitive duties. Random testing for drugs may occur without regard to proximity to the performance of safety-sensitive functions. Drivers will be selected by random process, and each driver will have an equal chance of being selected and tested for a given round of random testing. All random testing will be in accordance with federal regulations. A failure to submit to a random test or any interference with a test by the employee will result in discipline up to and including termination.

Reasonable Suspicion Tests: The District will conduct reasonable suspicion drug and alcohol testing in accordance with federal regulations. Any qualified supervisor who has reasonable suspicion to believe that a driver has violated the alcohol or drug prohibitions of the District shall initiate the procedure for testing, beginning with documenting the basis for reasonable suspicion. Final documentation of the basis for reasonable suspicion shall be signed and filed with the appropriate District administrator by the qualified supervisor within 24 hours of the basis for reasonable suspicion or prior to the results of the test being released, whichever is earlier. Reasonable suspicion alcohol testing requires that observations are made just before, during or just after the period of the work day when the driver must comply with alcohol prohibitions. The qualified supervisor who makes a reasonable suspicion determination is prohibited from administering the test itself.

Return-to-Duty Tests: Any driver who is not terminated as a result of a positive test must receive an evaluation from a substance abuse professional at the employee's expense and successfully pass an alcohol or drug test before the driver will be permitted to perform safety-sensitive duties. The substance abuse evaluation must be conducted in accordance with federal law and by a properly credentialed substance abuse professional.

Follow-Up Tests: If a driver has violated the prohibited drug and alcohol rules, the driver shall be required to take a drug and/or alcohol test before returning to safety-sensitive functions for the District. The driver shall be subject to unannounced follow-up testing at least six (6) times in the first 12 months following the driver's return to active safety-sensitive service.

Within ten (10) days of the determination of a failed test by a driver, the Superintendent or designee shall notify the director of the Missouri Department of Revenue of any driver who has failed to pass any drug or alcohol test administered pursuant to District procedures. All information required by the Missouri DOR shall be provided by the District in accordance with the law.

Professional Development for Employees E-135-E

The District administration will create, and the Board will support professional development activities with the adoption of the annual budget. The District administration will present the professional development plan based on the District's CSIP and all allocations to implement such plan to the Board for approval annually. Generally, 95% attendance is required for a teacher to be approved to be absent on a day when school is in session.

Further, the District will:

1. Allocate adequate funding for high-quality professional learning activities as defined by law.
2. Provide leave and dismissal time for approved professional growth activities and reimbursement for expenses related to conferences and visitations.
3. Provide opportunities for increased compensation or advancement on the salary schedule with additional education or training in accordance with Board policy and procedures.
4. Provide opportunities for collaborative participation by staff members in the same school community, subject area, grade level or department.

Professional Development Committee (PD)

- A. Structures of the Committee: The District PD Committee (PD) will be a standing District-wide committee developed according to the following guidelines:
1. The District Committee will consist of at least one teacher-elected representative from each building. In addition, an administrator in each District building will serve on the committee.
 2. Whenever possible committee members must be tenured staff members.
 3. District PD Committee members will be elected for three-year staggered terms.
 4. The members of the District Committee will elect the committee officers each year at the May PD meeting. Elected officers must have served a minimum of one year on the District PD Committee. The officers may serve as many years as elected.
 5. The chairperson will call meetings as needed, create agendas and conduct the meetings.

6. The secretary will keep and record the minutes of the meetings and read minutes to members. Minutes will be electronically submitted to staff within one week of meeting.
7. The PD will meet as needed at a location designated by the chairperson.
8. The District PD will provide PD membership training as needed.
9. The District PD, working with the Central Office administration, will plan professional learning opportunities for staff to help accomplish the stated CSIP goals.

1. The role and responsibilities of committee members in assisting both beginning and experienced teachers. Discussion should cover their role as defined by statute and District policy. It should also cover the roles of other key people in the professional learning process.

 2. Serve as confidential consultant upon a teacher's request.
 3. Assess faculty needs and develop in-service opportunities for certified school staff.
 4. Present to the proper authority, faculty suggestions, ideas, and recommendations pertaining to classroom instruction within the District

The District PD Committee, in collaboration with the District administration and the Board, shall determine how those professional learning responsibilities can be fulfilled most effectively.

Since the District-level committee is charged with helping teachers grow professionally, the committee/teacher relationship should be characterized by trust not secrecy. Thus, matters discussed by a teacher and the District PD Committee member should be held in confidence, but would not be considered "privileged information" if, for example, someone is called upon to testify in court.

The District PD Committee by-laws may be amended by a majority vote of the District PD Committee membership.

The District PD Committee is not intended to relieve principals or District administrators of their responsibilities as instructional leaders. The committee can, however, provide principals and District administrators with valuable information concerning teachers' needs and helping to move the District closer to its instructional goals.

D. Teacher Certification and Professional Classification

Missouri Teacher Certification Requirements: Teachers are required to maintain appropriate certification in Missouri to be legally licensed as a classroom instructor.

A beginning teacher will be assisted through the District's Beginning Teacher Assistance Program. A two-year mentoring program has been developed to assist the new teacher through classroom experiences.

It is important that each teacher design a professional learning plan on an annual basis. This is a requirement for the Career CPC classification process. Documents are provided to assist teachers with this task.

The new certification process has replaced lifetime certificates and continues a systematic review of all requirements and qualifications for Missouri teachers. It is the responsibility of each teacher to keep informed of the classification process and proper certification requirements and to document with the District all professional learning hours.

Classification Information:

There is a two-tiered plan of professional classification.

The **Initial Professional Classification (IPC)** is valid for four (4) years and assigned to new graduates of teacher education programs and individuals with less than four (4) years of teaching experience who meet the minimum requirements and qualifications. To advance to the next level during the valid dates of the classification, a teacher must meet the following requirements:

- Participate in a District-provided and approved mentoring program for two (2) years;

- Successfully complete within the four (4) year period 30 contact hours of professional learning which may include college credits;
- Participate in a Beginning Teacher Assistance Program;
- Successfully participate in a Performance Based Teacher Evaluation; and
- Complete four (4) years of approved teaching experience.

The **Career Continuous Professional Classification (CCPC)** is valid for 99 years requiring a teacher to meet the following criteria:

- The requirement at the IPC, PCI, PCII or CPC level
- Annual completion of 15 contact hours of professional learning which may include college credits
- Successful completion of yearly Performance Based Teacher Evaluation.

A teacher may request “high-quality”/Career **CPC** classification, which exempts the individual from the annual 15-contact hour requirement. In order to obtain this status, the individual must complete two (2) of the following criteria:

- Ten (10) years of approved teaching experience
- Master’s degree in education or in an area of certification
- Completed National Board Certification.

Certification forms are available in the back of this handbook.

Employee-Student Relations E-185-E

All staff members of the District are expected to communicate with students in a professional manner and maintain appropriate boundaries and relationships with students. The standards set forth below apply to any interactions staff members may have with students of the District or students of other schools. These rules are not comprehensive, therefore any inappropriate interaction a staff member has with a child may result in disciplinary action against the staff member. Staff members are required to avoid interactions or situations which may lead to an appearance of impropriety or which could give rise to allegations of an inappropriate relationship.

Interactions and communications with students should be related to the educational relationship between a staff member and a student. It is common for employees to have contact with students in appropriate settings outside of the school environment and context through familial ties, community groups and activities, and commercial endeavors. Even in such settings, employees must comply with the rules provided herein and otherwise maintain appropriate boundaries and relationships.

Employees are strictly prohibited from engaging in certain conduct, which includes, but is not limited to:

1. Making sexual advances toward a student.
2. Touching students in a sexual manner.
3. Communicating with students regarding topics that are sexual or romantic in nature outside of the District's approved curriculum unless such communication is part of an administrator's or designee's investigation into sexual harassment, sexual abuse, or violations of the District's disciplinary code.
4. Communicating with students regarding the employee's own sex life or love life.
5. Engaging in or planning a romantic relationship with a student or former student of the District.
 - a. For the purposes of these rules, the District considers any relationship that occurs within 180 days of graduation or of a student leaving the District as indicative of a failure to maintain appropriate boundaries during the period of time the individual would have been a student of the District.
6. Engaging in conduct that would violate District Policy C-130-P.
7. Associating with students in any setting where students are provided or are consuming alcohol, tobacco, or drugs.

The following conduct is prohibited unless there is, in the discretion of the Superintendent, an educational reason, an emergency reason, or an appropriate familial relationship in place, for such conduct to occur:

1. Allowing a student to drive a staff member's vehicle.
2. Directing students to run personal errands for the staff member.
3. Inviting students to a staff member's residence or private property.
4. Being alone in a vehicle with a student without prior authorization from the staff member's supervisor.
5. Being present when students are in any state of undress.
6. Being in a room with a student with the door closed, a door locked, or the lights off.
7. Giving gifts, including but not limited to money, to individual student.

Electronic Communication with Students

The maintenance of professional boundaries between staff and students extends to all modes of electronic communication. The District may provide or prescribe certain methods of or platforms for communication for staff members to reach students and may restrict/prohibit other methods. Prior to using a particular method of electronic communication with a student or group of students, a staff member must seek authorization from his or her supervisor regarding the method/platform and the intended purpose. Once a method of communication is approved, the staff member should only

use electronic communication as often as required in order to achieve the approved purpose. Staff members may be required to include his or her supervisor on communications if directed to do so. Regardless of the mode, all communication must be for an educational reason. All electronic communication must occur between the hours of 6:00 a.m. and 10:00 p.m. Staff members who communicate with students via electronic methods either on District-owned or personally owned devices, may be required to provide copies of all communications with students immediately if so directed by a supervisor.

Any employee who is aware of a fellow employee's failure to maintain appropriate boundaries with a student is required to immediately report any such concern to the building principal and if applicable, comply with mandatory reporting requirements under the law. The District will provide annual training to staff members to ensure staff members are aware of these rules, signs of possible abuse, and reporting requirements under the law.

Personnel Records E-190-E

The District will maintain complete, accurate, and current personnel files for all employees of the District in accordance with the then-applicable Missouri Secretary of State's records retention schedule. The District will maintain records securely in accordance with any records-keeping recommendation practices made to the District by the District's auditors or the State Auditor.

Personnel records are maintained for the District's employment purposes and shall be confidential to the extent permitted by law. Individually identifiable personnel records, performance ratings, and records pertaining to employees, former employees or applicants for employment are closed records and not accessible to the public. Only employees and/or independent contractors of the District who are authorized by the Superintendent or designee may have access to personnel records. The District will provide access to personnel records to the District's legal counsel, to state and federal agencies with appropriate authority, pursuant to legal subpoenas and court orders, and when such records may be used to defend the District in legal actions.

Employees who wish to review their personnel file, with the exception of the ratings, reports and records created or obtained prior to the employment of an individual, including confidential placement papers and letters of reference, must submit a request at least 24 hours in advance to review such file during regular working hours and in the presence of the Superintendent or designee.

The District will release, in accordance with the law, the names, positions, salaries, and lengths of service of employees. Employment contracts are not confidential personnel records and must be released in accordance with the law.

- Student's teacher is under emergency or other provisional certification status.

If a staff member is contacted by a prospective employer for a professional reference for a current or former staff member of the District, all District staff members are required to forward that request to the Superintendent.

Staff members may provide personal references for colleagues only if the staff member indicates within the reference that he or she is not speaking on behalf of the District. Staff members are prohibited from using District resources, including letterhead and District email accounts, for providing personal references. Personal references may not give the appearance of the endorsement of the District. District employees, contractors, and agents are prohibited from providing personal references or otherwise providing assistance in obtaining a new job to any other school, any employee, contractor, or agent who has been accused of sexual misconduct regarding a minor or a student. If employees have questions or concerns regarding this prohibition, they should contact the Superintendent for additional guidance.

If a written response of this sort is provided by the District, the Superintendent or designee shall send a copy of the response that was sent to the prospective employer to the current employee or former employee at the employee's last known address.

Additional factual information regarding an employee's duties and work performance may be provided by the Superintendent or designee only if an employee has submitted a written consent.

As required by law, the District will disclose, to any public school that contacts the District about a former employee, information regarding any violation of the published

regulations of the Board by the former employee if such violation related to sexual misconduct with a student and was determined to be an actual violation by the Board after a contested case due process hearing conducted pursuant to District policy. Sexual misconduct includes sexual misconduct involving a child as defined by [§ 566.083, RSMo](#), sexual contact with a student as defined by § 566.086, RSMo, sexual harassment as defined in C-131-P; or child abuse involving sexual acts, as determined by the Department of Social Services.

Additionally, if the District has previously employed any person about whom Children's Division has conducted an investigation involving allegations of sexual misconduct with a student and has reached a finding of substantiated and another public school contacts the District for a reference for the employee, the District shall disclose the results of Children's Division's investigation to the school.

Any District employee who is permitted to respond to requests for information, acting in good faith, who reports authorized information, as provided in this policy or, who, in good faith, reports alleged sexual misconduct on the part of a District employee, will not be disciplined or discriminated against because of such report.

Students will not be disciplined for speech in situations where it is permissible by law. This restriction does not apply to curricular material vetted and approved by District employees for educational purposes.
Sexual Activity	Consensual acts of sex or consensual simulations of sex including, but not limited to, intercourse or oral or manual stimulation.
Tardiness or Truancy	A student arriving after the class period has begun is marked tardy. Truancy is when a student is absent from school without permission from the parents/guardians or school official. Corporal Punishment

Corporal punishment is defined as: “The intentional infliction of physical punishment, usually in the form of spanking, as a method of student discipline.” Corporal punishment is strictly prohibited as a method of discipline. However, reasonable force may be used, when necessary, for the protection of a student or others or property.

Seclusion and Restraint S-205-E

The District is committed to implement professionally accepted practices to protect the health and safety of students. Therefore, as required by law, District policy comprehensively addresses the use of restrictive behavioral interventions for behavior management and student discipline.

Only authorized personnel who have received annual training in de-escalation practices, professionally-accepted and appropriate use of physical restraint, appropriate use of seclusion, communication expectations and requirements with students and families about restraint, required documentation procedures and District policy, are permitted to implement restrictive behavioral interventions. All staff members are expected to review District policy to become familiar with the requirements and limitations associated with seclusion and restraint.

The District limits the use of seclusion or restraint to situations or conditions in which there is imminent danger of physical harm to self or others..

Administration of Medication S-135-E

All student medication is to be kept in the health office whether it is prescription or over-the-counter. District personnel are not authorized to dispense any medication, including over-the-counter medication, without written permission from a parent or guardian and then, only designated, trained personnel are allowed to dispense medication or treatment in the health office. Students who are incapacitated due to a cast, crutches, sutures, or other conditions need a physician’s note specifying the restrictions and duration of the restrictions. The school nurse can assist with obtaining clarification of physician orders. Employees will be notified by the nurse, IEP case manager, and/or 504 case manager when a student has a health condition that warrants specific accommodations. Any accommodations provided via a health plan, IEP, or 504 Plan must be followed as written.

Students with Allergies S-145-E

The classroom is the most common area in which students experience an allergic reaction. Therefore, to protect the student, yourself, and others, employees should know which students have life-threatening conditions and their plans (IEP, 504 Plan, Emergency Action Plan (EAP), and Individual Health Plan (IHP)). Employees must follow the plans, especially attending to accommodations. Employees must also attend all required trainings and individual meetings for a particular student. A student who is feeling ill after exposure to a known allergen should not be sent to the health room or office alone or with another student. If necessary, request assistance from staff outside the classroom.

Administrators will identify who will inform parents of any school events and activities where food will be served other than during regularly scheduled meal/snack times or when other allergens may be present (classroom teacher, nurse, case manager, etc.). Foods or other potential allergens should not be offered to students without parental approval. Employees should not interpret food or product labels. Employees should encourage non-allergen and non-food activities, reward, and treats. Employees should educate, with written permission from the family of a student with allergies, the class and families of restrictions and precautions. All substitute plans should include any pertinent student information and procedures for students with a plan.

Peanut/Nut Allergy Protocol:

- All classrooms will be designated as peanut/nut free zones – no peanut/nut products will be permitted in the classrooms.
- Students with peanut allergies will be designated in every lunch room in all school buildings.
- Students consuming peanut/nut products during lunch should wash their hands prior to returning to the classroom.
- No food/drink is to be opened or consumed on school buses unless being used to control a medical condition such as diabetes.
- Staff is asked to restrict consumption of peanut/nut products to the designated teacher lunch area. If peanut/nut products are consumed, hands must be washed prior to returning to the classroom.
- All treats/snacks brought into the classroom for birthday parties, classroom parties, etc., are to be packaged from a commercial kitchen. No homemade treats are permitted.

Reporting and Investigating Child Abuse S-160-E

Definitions:

Child abuse - Any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control.

Child neglect – Failure by those responsible for the care, custody, and control of a child to provide the proper or necessary support, education, nutrition, or medical, surgical or other care necessary for a child's well-being.

Reasonable cause to suspect – Some reason to believe that a child may have been subjected to abuse or neglect; the employee does not need to have any sort of conclusive proof or validation.

Mandated Reporting: Missouri law classifies all staff as mandatory reporters of child abuse and neglect. School employees are required to report possible abuse or neglect regardless of whether the alleged perpetrator had “care, custody, or control” of the alleged victim. As mandated reporters, District staff are required to immediately report any child abuse or neglect they suspect or observe by calling the Abuse Hotline at 1-800-392-3738. A mandated reporter may also make a report of suspected child abuse or neglect to any

law enforcement agency or juvenile office. However, such report does not take the place of reporting to Children's Division (CD). When in doubt whether abuse or neglect may have occurred, err on the side of reporting.

The reporting requirements, as defined in law, are individual. Therefore, a teacher's or employee's supervisor should not make the hotline call to CD. The teacher or employee must make the call themselves. Teachers and other District employees should not be disciplined or discriminated against for reporting suspected abuse or neglect to the CD in good faith. If any school employee has reasonable cause to suspect that a student has been subjected to abuse or neglect, the employee should be provided immediate access to a phone and be temporarily relieved of other work duties, as necessary, in order to make the report.

If a student reports alleged sexual misconduct on the part of a teacher or other District employee to a District employee, both the employee and the Superintendent must report the allegation to CD. CD is required to investigate the report. Investigate allegations against an employee of the District for the purpose of making employment decisions.

Making a Report: When a report to CD is made, the following information will be required: names and addresses of the child and his parents or other persons responsible for care; child's age, sex and race; nature and extent of the child's injuries, abuse, or neglect, including any evidence of previous injuries, abuse, or neglect to the child or siblings; name, age and address of the person responsible for the injuries, abuse, neglect, if known; family composition; source of the report; name, address, contact information, and occupation of the person making the report; actions taken by the person making the report; including any photographs taken and/or keeping the child; any other information that may be helpful. If CD declines to accept the report, log the name of the representative, the date, and the report made.

Student Records S-125-E

Student education records are official and confidential documents protected by the Family Rights and Privacy Act (FERPA). A student education record includes information such as date and place of birth, parent/guardian names and addresses, emergency contact information, enrollment and attendance records, academic records, special education records, discipline information, and health records.

A student record may also consist of notes or communication shared with one other individual that contains personally identifiable information regarding a student, including email, texts and other forms of information transmitted. Communication about a student must be consistently professional in all contexts.

Education records are requested and disclosed as required by law. Only District employees with a "need to know" have a right to certain types of a student's education records, which may not be the same information dependent upon one's role with the students. The District is required to document specific information associated with disclosing student records. When records are shared outside the District policy and

procedures, it may create unmanaged risks for the District and the employee who shared information apart from approved procedures.

All records requests made to anyone in the District, unless it involves specific classroom assignments or activities, should be directed to and responded to by the building secretary. Student records is addressed within District Policy S-125-P and in the Student/Parent Handbook.

Community, Finance, Facilities, and District Operations

Prohibition of Tobacco and Imitation Tobacco Products C-150-E

To promote the health of all individuals, the District prohibits all employees, students and patrons from smoking or using tobacco products, electronic cigarettes or imitation tobacco or cigarette products in all District facilities, on District transportation, on all District grounds at all times and at any District-sponsored event or activity while off campus.

Use of Recording Devices or Drones C-165-E

The District prohibits audio and visual recordings on District property, District transportation or at a District activity unless authorized by the Superintendent. Requests for such authorization must be made within a reasonable period of time prior to the recording. Unless otherwise specified by the Superintendent, the following exceptions to this prohibition apply:

1. The District or designated agents of the District may make audio or visual recordings to provide security, to maintain order, for staff or preservice teacher development use, or for educational purposes.
2. Students may record if required by a District-sponsored class or activity.
3. Individuals may record performances or activities to which the general public is invited such as athletic competitions, concerts and plays.
4. Individuals may record open meetings of the Board or District committees.
5. Outside entities may record an event when using or renting District facilities in accordance with District rules.
6. A parent or legal guardian of a student may audio record any meeting held under the IDEA or Section 504 of the Rehabilitation Act with no less than 24 hours' notice to the Director of Special Services.

All unmanned aircraft systems (UAS), commonly known as drones, with the potential to capture or produce visual images of District property or District events must be operated in accordance with applicable Federal Aviation Administration regulations or safety guidelines. All UAS operators must receive authorization from the Superintendent to operate a UAS on or over District property or at a District event.

Advertising on District Property C-170-E

It is the District's intent to maintain a nonpublic forum. Advertisement is prohibited on District property unless authorized by the Superintendent or designee. Advertising prohibited includes, but is not limited to, personal solicitations, signage, announcements, pamphlets, handouts, and any other dissemination of information regarding products or

services available or for sale. The solicitation of information including, but not limited to, political campaigning, is also prohibited.

Purchasing F-140-E

Employees are required to comply with District purchasing guidelines. Comprehensive guidelines are located in District Policy. For the purposes of this Employee Manual, the following purchasing guidelines are particularly relevant:

- District staff members are encouraged to purchase products manufactured, assembled or produced in the United States.
- The District will follow all requirements for purchases undertaken with federal funds which are subject to the federal Uniform Grant Guidance (UGG) and other applicable federal law, including but not limited to the Education Department and General Administration Regulations (EDGAR) and the United States Department of Agriculture (USDA) regulations governing school food service programs.

Purchasing Generally: The Superintendent or designee will supervise District purchasing to ensure the following:

1. No purchase that may exceed \$25,000 will be made without prior Board approval, unless it is an emergency and is approved by the Superintendent.
2. Purchases may only be made through a purchase order, credit or purchasing card, or through petty cash.
3. All purchases must receive approval from the appropriate supervisor responsible for the budget code from which the purchase is made.
4. The Superintendent or designee must approve travel expenses such as airline tickets and hotel reservations.
5. All purchases must be appropriately documented consistent with District guidelines. Documentation related to purchases will be maintained in accordance with the Missouri Secretary of State's retention manual and include an audit trail linking the solicitation, evaluation, award and payment.
6. District staff will provide the District's tax-exempt letter to vendors before making any purchase that may be taxed.
7. No contract will be entered into or bill paid without the proper documentation and an affirmative vote from a majority of the whole Board.
8. Any contract to provide the District services in excess of \$5,000 to the District must be conditioned on the provider submitting a sworn affidavit and documentation affirming enrollment in E-Verify and stating that the provider does not knowingly employ any person who is not authorized to work in the U.S.

Credit and Purchasing Cards: The following rules apply to the use of District credit or purchasing cards:

1. The Board will set limitations on the use of the Superintendent's credit/purchasing card. The Superintendent will set the limit on all other credit/purchasing cards.
2. Any employee using a District card shall first sign a card usage agreement and receive training on procedures for card use.

3. Employees issued credit or purchasing cards must reconcile their statements every month. Documentation, including receipts and the appropriate budget code, will be produced for each item purchased.
4. The Superintendent or designee will examine all documentation prior to payment. If any purchase was made by an employee contrary to law, Board policy or administrative procedures, the Superintendent/designee will immediately confiscate the card.
5. District cards will not be used to purchase personal items, or unauthorized items.

Petty Cash: District administrators are responsible for the accounting of petty cash. All petty cash funds must be used exclusively for school purposes and appropriately documented.

Fraud Prevention F-160-E

Reporting Suspected Fraud or Financial Irregularities: Any person who has reason to suspect fraud or financial irregularities should report that suspicion to the Superintendent or designee as soon as practicable. Employees or District volunteers who suspect fraud or financial irregularities are required to report it and may be disciplined or dismissed for failing to do so. If the suspected fraud or financial irregularity directly involves the Superintendent, the report should be made to the Board President. Reports will be kept confidential to the extent allowed by law. The person making the report should not communicate directly with the suspected individual or individuals unless specifically authorized to do so.

Expense Reimbursement F-175-E

The purchasing procedures of the District are required to be followed for all regular purchasing practices. For emergency or special circumstances purchases, the Superintendent or designee may authorize the reimbursement of certain expenditures. Any reimbursed expenditures will fall within the District's budget, must contain documentation of why the expenditure occurred and receipts for the expenditure must be produced.

Travel Expenses F-180-E

With prior written approval by the Superintendent, the District will pay reasonable expenses necessary for those who travel on District business. Each employee traveling on District business will file with the Superintendent or designee an itemized account of expenses incurred. Each employee will submit any other reports regarding travel as may be required by the Superintendent or designee.

Automobile travel will be reimbursed at the rate of \$0.40/mile. Reasonable travel costs must not exceed charges normally allowable by the District in its normal operations. Commercial air travel must be the least expensive, unrestricted accommodation class.

Travel documentation should include an itemized account of expenses incurred, written justification for participation on behalf of the District, the reasonableness of costs

incurred, and consistency with District rules. Such documentation should also include a list of District attendees, the agenda or program, and Superintendent's written approval.

Traffic and Parking Control F-210-E

All District parking lots and sidewalks are under the control of the Superintendent or designee, and subject to restrictions deemed appropriate by the administration. Vehicles on school property are subject to search in accordance with law. District parking lots carry the same restrictions from weapons or items prohibited from District buildings. Administrators have the ability to restrict or prohibit vehicles from being on school property, and administrators have the ability to request vehicles be moved. If individuals refuse to comply with the request of the administrator, the vehicle may be towed at the owner's expense.

Safety F-225-E and Emergency Preparedness Plan F-230-E

The District has developed comprehensive safety and emergency plans. These are available for review in the District office.

Firearms and Weapons F-235-E

Weapons may only be possessed on school property by commissioned law enforcement officers, other specifically trained individuals, or for the purpose of a school-sanctioned firearm related event. Examples of school sanctioned events include gun safety courses for students, military student programs, or school-sponsored club shooting team. A weapon is defined as a device readily capable of lethal use, or device designed to mimic a weapon. Unless exempted by this policy, weapons are banned from all District property and District related events, as allowed by law. The District will follow all state and federal law that addresses the discipline of individuals that violate this policy.

Communicable Diseases F-245-E

Medical information of students and employees is highly confidential, and the District will take necessary steps to protect the medical information of individuals, except as provided by law on a need to know basis.

Employees are not allowed to work if they have a medical condition that is communicable, unless they have a written statement from their physician clearing them to work, and the appropriate school personnel have agreed with the precautionary measures, as necessary, offered by the treating physician, as permitted by law. The Superintendent or designee will work with local agencies and the State Health Department on identifying categories of potential risk, procedures for cleaning body fluids, and procedures for dealing with communicable disease in individuals. District funds will be utilized for the purchase of equipment and supplies necessary to appropriately clean body fluids. The Superintendent or designee is permitted to communicate personally identifiable health information of students and employees with other governmental agencies, as permitted by law.

Students, employees and visitors to schools may not be present on school property unless they have received the appropriate immunizations required by law, unless they are appropriately exempted.

Asbestos F-215-E

The U.S. EPA Asbestos Hazard Emergency Response Act (AHERA) under the Federal Code of Regulations 40 CFR 763.93g(4) requires that building occupants be notified annually of the presence of asbestos in the building and the availability of the Asbestos Management Plan. Inspections occur every 5 years.

A copy of the Management Plan and inspection reports are available for review at Central Office located at 800 W. Frost Street as well as each school office. Questions regarding asbestos or the management plan may be directed to Dr. Sandy Steggall at 816-539-2183.

Animals on District Property F-250-E

Eligible students or adults with disabilities may utilize a service animal on District property or District events as required by law and the conditions of this policy. The District will not discriminate based on an individual's disability.

The definition of a service animal will be based upon state and federal law. The task of a service animal must be based upon the disability of the individual. The "deterrent of crime" effect of a service animal's presence and the provision of emotional support, well-being, comfort, or companionship does not constitute work or task for the purpose of this definition.

The definition of a service animal applies to a dog, and in some cases a miniature horse. If a miniature horse, the District will determine if the presence of the horse compromises facility safety requirements, and what modifications might need to be made because of the weight and size of the horse. The District may inquire what task or work the animal has been trained to perform, and whether the animal is required because of a disability. The District will not request documentation to determine whether the animal has been trained or certified as a service animal.

Service animals will not be allowed on District property if they present a safety risk or a health threat to students, employees or visitors. The District is permitted to make additional inquiries of the individual or service animal as permitted by law.

It is a class C misdemeanor for a person to misrepresent a dog as a service dog for the purpose of receiving accommodations regarding service dogs under the Americans with Disabilities Act. A person may also be civilly liable for any actual damages resulting from such misrepresentation.

Technology F-265-E

The Superintendent or designee will delegate responsibility for the District's technology system to a school employee. In addition, the District may contract with one or more vendors to assist in the overall operation of the technology system of the District. The

District's technology system shall be considered a closed forum to the extent allowed by law.

The technology resources of the District may only be utilized by individuals authorized by the District. Students, employees and Board members are required to sign a User Agreement prior to utilization of the technology resources of the District. Users do not have an expectation of privacy in utilizing any District technology resources.

Users of District technology are subject to necessary review of data accessed or stored on District technology and technology equipment, as allowed by law. The District will utilize a content filter system to help prevent minors from accessing inappropriate information and the District will retain data stored electronically as required by law. In accordance with law, the content filter system will be used to protect against access to visual depictions that are obscene, harmful to minors, or child pornography. The District will monitor the online activity of students in compliance with the Children's Internet Protection Act (CIPA).

Copyrighted Materials F-275-E

A summary of copyright laws is posted by each copy machine in the District and the same information is posted on the District's website. If any student or employee believes copyright or intellectual laws have been violated, they should report the issue to the building administration. The building administration will refer the matter to the Superintendent's office for coordination of an investigation into the allegation.

District Wellness Plan F-290-E

with the Human Resources department, and/or the Superintendent in relation to any potential initiatives or incentives for employees.
